The "Little Leap"

Every summer hundreds of kids take a leap of faith and ride our 1,000 foot zip line which we've named, "Leap of Faith." All these children are in 3rd grade or higher. We've noticed that we have some brave souls that are younger than 3rd grade that would like a leap of faith experience. This spring we are building the "Little Leap" which is a zip line activity designed for younger children (or children a little older who aren't quite

ready for the bigger ride). The Little Leap will be located near the existing tower and will feature a seat rather than a harness. We are looking forward to seeing everyone enjoy the zip lines this summer!
